

## 30<sup>th</sup> Anniversary Writing Competition

Champion

6B Wang Hei Lam

22<sup>nd</sup> November 2020

Dear Pat,

Hi! Do you know I really miss you? How's everything? Recently my school celebrated its 30<sup>th</sup> anniversary. I had so much fun that day! I could feel the celebratory atmosphere in the activities. I think the celebration activities in Hong Kong must be different from Canada. I can't wait to share with you what activities the school had held to celebrate and how memorable this great occasion was.

There were three main activities to celebrate the 30<sup>th</sup> anniversary. They were the school musical, the school fair, and the time capsule. These events were also held on 4<sup>th</sup> September. The school musical was the first activity, which was very grand. It was held at the school hall. The school superintendent, principal, vice-principals and principals from other schools were also invited to the event. The schoolmates performed a musical called "The Wonderful School life." They had rehearsals and practiced for three months, they put their creativity into the show. It was about how special and talented the students in our school are, as well as the wonderful school life they have. Therefore, it's not only amazing but also unique for our school. After the show, everyone applauded happily. The show was so brilliant and was affirmed by everyone.

After the musical, it was about time to go on to the second activity, which was the school fair. There were five booth games. They were Soda Toss, Sand Art, Knockdown, Balloons Games and Crazy Hat. The games were very fun, such as using bean bags to knock down the cans which were placed in a pyramid. When the students win the game, they can get the stamps. If they have enough stamps, they can exchange for gifts! And I was responsible for the gift exchange center. Although I couldn't participate in the booth games, I could still feel the joyful vibes, it was because everyone was so happy to exchange the gifts. There were a lot of gifts, for example, pens for the small prizes, pencil bags for medium prizes and the big dolls and school bags for the big prizes! Everyone took a photo after they exchanged the gifts. I think everyone must be splendid if they see the photo after a few years, because they can recall the memorable school anniversary and the wonderful day.

Later but not least, every teacher, our principal and all the form 6 students had put their letters in the time capsule. The time capsule was masked in the garden near a big tree in our school. We promised we will be back after 10 years. I hope everyone will be here after 10 years and everything will be fine too. Why did Form 6 students join the time capsule project? It is because this is our last year in the school and luckily we are also the 30<sup>th</sup> year graduates. I'm so proud of myself too! I wrote some aims for myself. I hope I can fulfill all my aims after 10 years. I am curious about what others had written in their letters too. I think the time capsule is a great journaling tool that I can use to raise awareness about the direction of wisdom and memories. It allows me to have this valuable knowledge delivered to my door in the future.

Stop writing now. I want to know how Canada celebrates the anniversary too! Also, I'm looking forward to seeing you in the coming Christmas holiday. Write back soon.

Best wishes,  
Chris
