Strategies for supporting NCS students in learning Chinese

- ✧ Take care of students with different learning needs and use objects from real life to design school-based materials.
- ✧ students study in a small group or stay with the local students in class according to their ability.
- ✧ Arrange students to study IGCSE or Applied Learning courses for students' career development.
- ✧ Develop students' self-learning ability and encourage them to use the e-learning applications to learn Chinese.
- ✧ Arrange after-school support and a pre-test study group for students to learn Chinese.
- ✧ create an inclusive campus learning environment and promote the "Read More and Have More Nutrition " peer reading program to enhance students' interest in reading and learning more words.
- ✧ cultivate non-Chinese students' understanding of Chinese culture, by holding activities such as Writing Spring Festival Couplets and Guess the Riddle.
